# Archer 2™ Rugged Handheld

## Gets the Job Done

The Archer 2 makes your work go smoother by eliminating the obstacles that slow you up. With new IllumiView™ technology, its brilliant display overpowers glaring sunlight unlike anything you've ever seen on a rugged handheld. And working in dense tree canopy will never again be an issue with its new simultaneous GPS and GLONASS capabilities. You'll love the responsiveness of its large, glove-friendly capacitive touchscreen and numeric keypad, allowing you to input data at unprecedented speeds. Add to this a battery with custom Overtime Technology™ for those days that run extra-long, and you have one mean data-collecting machine that you can depend on, wherever your job takes you.

### ILLUMIVIEW™ HIGH-VISIBILITY DISPLAY

- Extra-large display for easy viewing
- Unparalleled brightness overpowers glaring sunlight
- Extremely scratch-resistant
- Capacitive touchscreen provides sharper image & durability
- Hold-to-zoom™ gives you absolute precision
